

Proposal to Discontinue a Programme

This form is available for downloading from <http://www.lboro.ac.uk/admin/ar/templateshop/> (item 3.7) - spaces can be expanded as required.

This proposal is in Strategic/Operational Phase

1. Name of Department and Departmental contact Computer Science, Ray Dawson 222679
2. Award and Title of programme Computer Science and E-Business (BSc and MComp)
3. Proposed date of last intake Oct 2010
4. Reasons for proposed discontinuation of programme This programme is the only programme in Computer Science that is showing declining numbers of applicants. The current first year has only 4 students, and assuming a similar conversion rate for next year, this is likely to drop to 2 students. Experience has shown that the "E-Business" label is no longer attractive to students as the University has already recently experienced with the recent decision by Information Science to discontinue their Publishing with E-Business programme.
5. Implications for existing students and/or those accepted for admission to the programme None. There has only been one application for the 2011 intake so far and this has already been rejected.
6. Implications for other departments (consultation form to be attached where relevant) Information Science teach some modules on the second year of this course.
