Dear Mr Harrison

Re: MOST INNOVATIVE PARTNERSHIP AWARD

Leicestershire Fire & Rescue Service recognise that its employees are a crucial aspect of delivering success, with achievements recognised on an annual basis through our internal awards program.

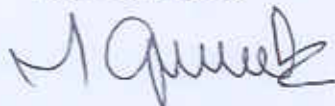

As you are aware, I nominated Green Watch at Loughborough Fire & Rescue Station in the "Most Innovative Partnership Award" as I recognise the outputs generated by yourself and others at Loughborough University, in partnership with Green Watch and in particular Dave Tait, the Crew Manager on the watch.

I am very pleased to advise you that the partnership which has facilitated the delivery of fire safety advice to over 1,500 Freshers last year, produced risk plans for specific premises highlighting hazards and enabling closer working relationships, has been viewed by the panel of judges as being successful in winning the award.

I would like to thank you and your team at Loughborough University for all of the hard work and commitment over recent years in reducing the number of incidents that we have attended, whilst increasing the safety of staff and students at the University.

I look forward to developing this partnership further as part of our continued drive to reduce the effects of fire and other emergencies within our community.

Yours sincerely

Mick Grewcock
District Manager Charnwood
