**31.** Programme Boards and Review Boards shall report upon their proceedings in a form and manner approved by Senate.

### Re-Assessment Rights

**32.** Students who fail to gain credit in a module at the first attempt shall be eligible to take reassessment in that module on one occasion only. Any Module Assessment taken under the provisions of this paragraph shall hereinafter

be referred to as a second attempt module assessment. Where part-time students opt not to take reassessment in modules with a mark of 40%-49% at the earliest opportunity, further opportunities for reassessment will arise in accordance with paragraphs 42-44.

**33.** Candidates who have registered for second attempt module assessments in accordance with the provisions of paragraph 32 hereof may repeat any or all of the modules with attendance, subject to the payment of tuition fees, if the module is available and if they first obtain permission from the School teaching the module. In such a case, candidates will be required to produce new work in every assessment contributing to the module, notwithstanding any decisions made by a Programme Board or Review Board in accordance with paragraph 34 hereof.

**34.** The Programme Board or Review Board shall receive recommendations from the relevant Module Leader(s) for each student and shall, for each module, determine which of the student's present marks may without further assessment be carried forward in the re-assessment process should the student choose to repeat the module without attendance. Notwithstanding this decision, students may opt to undergo any component of the module's assessment.

**35.** Where, at the first attempt, a student achieves a Module Mark of 40% to 49% inclusive in a project or dissertation module, the same piece of work may be revised and resubmitted at reassessment as a second attempt. Except where the provisions of paragraph 34 or 35 hereof apply, new work shall be completed by the student for reassessment.

**36.** Any student permitted to repeat any or all parts of a Module Assessment on a first attempt basis, in accordance with paragraph 22 or 23 hereof, may also be permitted, although not obliged, to concurrently repeat other Module Assessments on a second attempt basis. Where a candidate exercises this option, further second attempt Module Assessments may become available, in accordance with the provisions of paragraph 32 hereof, once the final Module Marks for all first attempt Module Assessments are known.

**37.** Candidates who wish to undergo reassessment must by a date designated by the Academic Registrar complete a reassessment form and must pay the required reassessment fee. The Academic Registrar may permit late registration for individual students and in such cases may require payment of a late registration fee in addition to the reassessment fee.

## **Re-Assessment Timing**

### **Full-Time students**

**38.** Reassessment shall normally take place no later than during the academic year immediately following that in which the failure occurred.

**39.** Except where the provisions of paragraph 39.1, 39.2 or 39.3 hereof apply, the students may choose to take reassessment in the Special Assessment Period and/or in the academic year immediately following that in which the failure occurred.

**39.1** Students who have achieved fewer than 60 credits at the first attempt shall not have the option to take reassessment in the Special Assessment Period.

**39.2** Where module specifications exclude individual modules from reassessment in the Special Assessment Period.

**39.3** Where module marks have not been confirmed by a Review Board.

**40.** Where a Dean of School approves leave of absence under the provisions of Regulation IX for a student who has outstanding reassessment rights, this will be taken as approval for deferral of reassessment and the Dean of School shall be required to specify the revised reassessment timescale prior to the leave of absence approval being processed.

**41.** Where a Dean of School permits reassessment to be deferred (in accordance with paragraph 40) for more than one year, the student must be registered for the module with attendance and pay the associated fees.

### **Part-Time Students**

**42.** Students may choose the academic year in which reassessment takes place. Where reassessment takes place later than one academic year after the academic year in which the failure occurred, the student must be registered for the module with attendance and pay the associated fees.

**43.** Except where the provisions of paragraph 43.1 or 43.2 hereof apply, students may choose to take reassessment in the Special Assessment Period immediately following the academic year in which the failure occurred and/or in an academic year following that in which the failure occurred.

**43.1** Where module specifications exclude individual modules from re-examination in the Special Assessment Period.

**43.2** Where module marks have not been confirmed by a Review Board prior to the Special Assessment Period.

**44.** In accordance with paragraphs 43.1 and/or 43.2, reassessments in some modules may be excluded from the Special Assessment Period in any given academic year.

### **Special Assessment Period Timing**

**45.** The Academic Registrar shall determine and publish the dates of a Special Assessment Period each year falling between the end of Semester Two and the beginning of the next academic year.

### **Re-Assessment Outcomes**

**46.** Failure to attend, or submit work for, a module reassessment for which a candidate has registered will result in a mark of zero being recorded for the assessment component concerned.

**47.** Where candidates have registered for modular reassessment under paragraph 32 hereof, the percentage marks obtained from the reassessments will supersede those received for earlier assessments for the purpose of determining Module Marks. The Module Mark resulting from that reassessment will be capped at 50% for the purpose of determining the Programme Mark in accordance with paragraph 16 hereof.

### **Termination of Studies**

**48.** A Review Board shall normally terminate the studies of a student in a module who, following a second attempt Module Assessment, has failed to gain credit in that module. The only exception to this rule shall be that the Review Board may instead permit the student to take repeat second attempt assessments in accordance with the provisions of paragraph 22.4 hereof or paragraph 23.1.2.4 hereof.

**49.** Where a student's studies in one or more modules have been terminated in accordance with paragraph 48 hereof, and it is not, therefore, possible for the student to meet the requirements for their main qualification aim, the student may be eligible for the award of a lesser qualification subject to the accumulation of the necessary credit as follows:

**49.1** Where a student has accumulated 100 credits and Module Marks of not less than 40% in further modules with a weight of 20, they shall be eligible for the award of Postgraduate Diploma.

**49.2** Where a student has accumulated 60 credits, they shall be eligible for the award of Postgraduate Certificate.

### **Abandonment of Studies**

**50.** Students who have failed to gain credit in a module at the first attempt, and who fail to register for reassessment by the published date and who have not been permitted to defer reassessment in accordance with the provisions of paragraphs 40-41 hereof may be deemed by the Academic Registrar to have abandoned their studies.

**51.** In accordance with the provisions of Regulation IX, any student who fails to register as a student of the University by the published date at the start of each academic year may be deemed by the Academic Registrar to have abandoned their studies.

### **Attendance**

**52.** Candidates who register for any module are expected to attend the relevant timetabled sessions at the University or at any other location where such sessions are held unless a special arrangement has been agreed by the Dean of School responsible for the module.

**53.** Candidates who wish to suspend their studies for good cause may apply to their Dean of School for Leave of Absence in accordance with the provisions of Regulation IX.

### **Aegrotat Degrees**

**54.** This paragraph applies to students who have been registered for a degree, and have gained at least 120 credits, or to students for whom the relevant School has made a case that the student has completed work equivalent to at least 120 credits. Where such a student has been prevented from obtaining a degree as a result of illness or other sufficient cause, he/she may apply in writing, or in exceptional circumstances have a written application made on his/her behalf, to the Senate for the award of an aegrotat degree. The Senate may award such a degree upon the recommendation of the relevant External Programme Assessor.
