

SIFE: How can you get involved?

SIFE stands for **Students in Free Enterprise**. It is an international non-profit organisation active in more than 1,500 universities across 40 countries.

Here in the UK, it is active in 48 universities. The **SIFE Loughborough** team is now in its fifth year and we are looking to really push forward this year.

Students can join a **SIFE** team and develop community projects that will improve the quality of life for people in need. **SIFE** teams apply business concepts and teach personal skills to create economic opportunity for others.

Projects can range from helping a young entrepreneur draw up an effective business plan, or empowering unemployed people with the skills, knowledge and confidence to re-enter gainful employment, through to international projects that can change the lives of an entire community.

SIFE students also develop their own leadership, project management and business skills, as well as a sense of service and responsibility to the community.

The **SIFE Loughborough** team have numerous projects already running and are always willing to help others set up their own. Everyone can get involved, have fun and gain many valuable skills by taking part.

Peter Bailey, President of SIFE Loughborough
