

Contractor Parking

All users of University and associated University Park roads, including car users, motorcyclists and bicycle users, are required to comply with the provisions of the Highway Code and with the University's Code of Conduct on Traffic and Parking in the University and associated University Park. For more information please visit the University's Travel and Parking pages here <http://www.lboro.ac.uk/services/security/traffic/>

Contractors must not park on roads in the University and associated University parks.

Contractors will be provided with designated areas for parking and are expected to use these. Contractors should not park in residential areas surrounding the University.

The maximum speed limit for vehicles on the University and associated University parks is 15 miles per hour (unless otherwise stated) and vehicles must at all times be driven in accordance with the Highway Code and with due care and consideration for all vehicular traffic, pedestrians, University property and wildlife. Drivers must treat pedestrian crossings on the Campus in the same way as those located off-Campus.

All users of vehicles on the University and associated University Parks must comply with traffic signs and notices which may be displayed either permanently or from time to time and with legitimate instructions from Security Officers or other Loughborough University employees having appropriate authority.

All vehicles used on the University and associated University Parks must be registered in terms of the Vehicles (Excise) Act 1974 and all drivers must hold a current insurance policy providing cover against third party risks (Section 143 Road Traffic Act 1988).

Access to the University and associated University Parks will be controlled throughout the calendar year by means of entry barriers at the main entrances. These barriers will be automatically operated to allow staff with a valid Permit onto University and associated University Park roads in addition to visitors and other delivery / service vehicles.

The following regulations apply to contractors across the whole University campus

Any vehicle parked other than in a specified parking space or in a car park for which the appropriate current permit is not held, or in any manner likely to cause an obstruction or a danger to other users, will be noted and a traffic infringement warning sticker placed on the vehicle informing the owner that they have breached the University's Traffic and Parking Regulations. The time and date of the issue of warning will be recorded by LU security. The Regulations are in force 24 hours per day, 365 days a year.
