Sir Denis Rooke Building LAST UPDATED July 2015

Purpose:

The purpose of a Generic Emergency Evacuation Plan (GEEP) is to enable visitors to the building with restricted mobility or those who may not be able to evacuate unaided to become familiar with the layout, evacuation procedures, available equipment and communication devices.

If you feel that this document does not provide you with sufficient information or that you require further assistance, please contact the Loughborough University Fire Officer on 01509 222182.

The building:

Sir Denis Rooke building comprises of 4 floors. 3 floors are accessible by using the lifts. Emergency egress using these lifts is not possible during an evacuation.

Safe refuge areas are available in all stair cores on the first and second floors and provide a EVC System (Emergency Voice Communication System) which links directly to the security gatehouse (see attached floor plan).

Several accessible fire exits are available at ground level.

Action required on hearing the fire alarm:

If able, you should leave the building immediately by the nearest fire exit (see attached floor plan) and report to the assigned assembly point for the building.

If you are unable to evacuate the building unaided, please proceed to one of the safe refuges located in each stair core (see attached floor plan).

An EVC System (Emergency Voice Communication System) is available in each safe refuge. Use this to contact the security team and notify them of your location, details of which are printed on the front of the panel. Full details on how to use the emergency call point are also provided in the safe refuge.

Other recommendations:

It is recommended that all visitors to Sir Denis Rooke Building should familiarise themselves with the fire alarm signals and floor layout. Floor plans and evacuation equipment locations have been provided with this document.

Equipment provided:

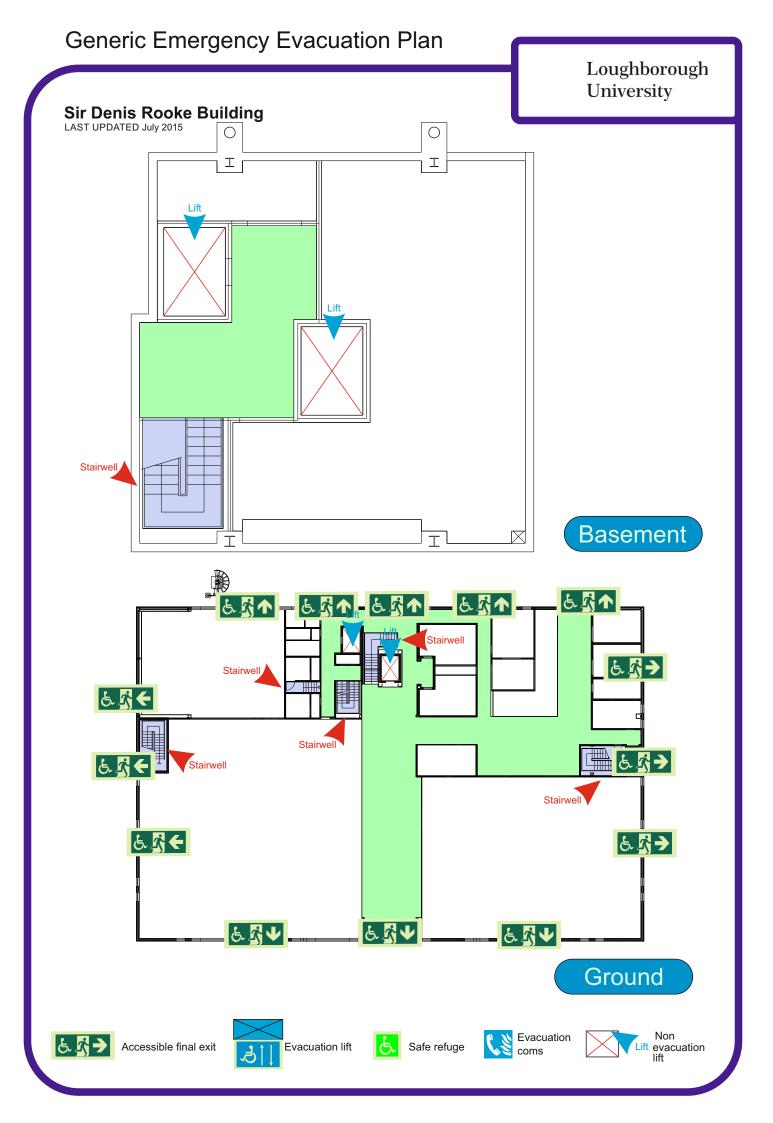

Accessible fire exits are available on the ground floor of the building. Safe refuge areas with EVC System (Emergency Voice Communication System)are available in each stair core on levels basement, ground and first floor.

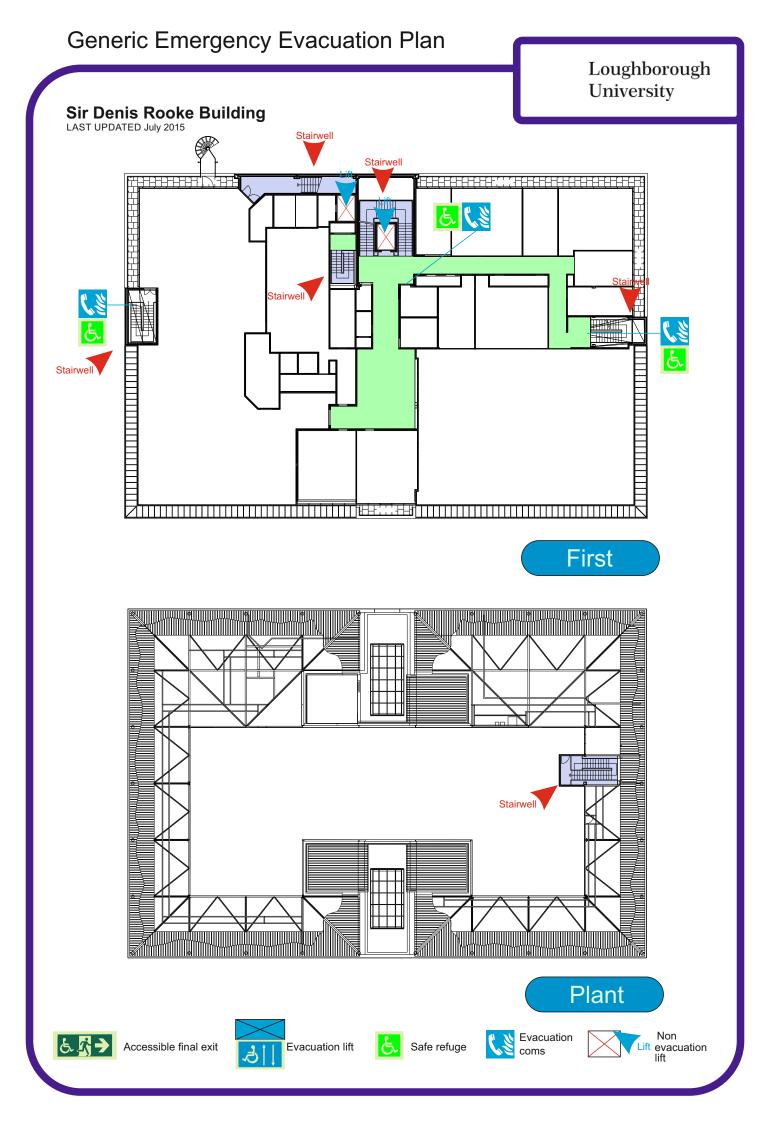

The Deaf Alerter system is installed in this building. If you would like access to a Deaf Alerter Pager, please contact the University Fire Officer on 01509 222182.

Fire Assembly Point 1

Sound Alarm Operate nearest fire alarm call point

Telephone internal emergency number 888 or 0800526966 if using outside line or mobile phone. In the event of a delay call 999 for the Fire Service giving the correct location of the building

Do not attack the fire with extinguisher unless trained to do so.
