

## 3-year PhD (full-time)

## 6-year PhD (part-time)

Academic Year 2023/24

Awarding body	Loughborough University
Programme title	3-year (full-time) or 6-year (part-time) PhD in Aeronautical Engineering; Architecture, Building and Civil Engineering; Automotive Engineering; Business; Chemical Engineering; Chemistry; Civil and Building Engineering (Built Environment); Communication and Media; Computer Science; Creative Arts; Drama; Electronic, Electrical and Systems Engineering; English; English and Drama (publishing and communication); Geography; Geography (Human and Social); Institute for Design Innovation; Institute for Diplomacy and International Governance; Institute for Entrepreneurship and Innovation; Institute for Media & Creative Industries; Institute for Sport Business; Institute of International Management; Loughborough Design School; Materials; Mathematical Sciences; Mathematics Education Centre; Mechanical and Manufacturing Engineering; Physics; Politics, History and International Relations; Social Sciences; Sport, Exercise and Health Sciences
Primary award	Doctor of Philosophy (PhD) or Master of Philosophy (MPhil)
Mode of Study	Full-time and Part-time
Programme length	Full-time: 3 years (with a maximum submission time of 4 years) Part-time: 6 years (with a maximum submission time of 7 years)
Owning school/department	School of Aeronautical, Automotive, Chemical and Materials Engineering School of Architecture, Building and Civil Engineering School of Business and Economics School of Design and Creative Arts Loughborough University London School of Science School of Sport, Exercise and Health Sciences School of Social Sciences Wolfson School of Mechanical, Electrical and Manufacturing Engineering
Campus	Loughborough and London
Admissions criteria	<a href="https://www.lboro.ac.uk/study/postgraduate/research-degrees/">https://www.lboro.ac.uk/study/postgraduate/research-degrees/</a>
Date at which the programme specification was published	

## Accreditation

None

## Programme Aims

The programme aims to equip Doctoral Researchers with the skills to design and carry out a research project, resulting in a thesis which will provide a contribution to knowledge and contain original work worthy of publication.

The programme will provide training in research methods appropriate to the particular field of study and allow Doctoral Researchers to become well acquainted with the general field of knowledge to which their research project relates.

## Benchmarks

### Relevant subject benchmark statements and other external and internal reference points used to inform programme outcomes:

The Frameworks for Higher Education Qualifications of UK Degrees  
Doctoral Degree Characteristics Statement (QAA)  
Credit Level Descriptors for Higher Education (SEEC)  
Loughborough University Quality Reviews  
Research Council Annual Reviews

## Learning Outcomes

### Knowledge and Understanding

On successful completion of this programme, Doctoral Researchers should be able to demonstrate comprehensive knowledge and understanding of:

1. subject-specific literature applicable to their area of research
2. relevant methods and techniques applicable to their area of research

### Skills and other attributes

#### Subject-specific cognitive skills:

On successful completion of this programme, Doctoral Researchers should be able to:

1. lead on the creation, development and implementation of a significant programme of research that will lead to new knowledge disseminated through the production of a PhD thesis
2. demonstrate originality in the application of knowledge, together with a practical understanding of how research and enquiry are used to create and interpret knowledge in their field
3. critically evaluate current research and research techniques and methodologies

#### Subject-specific practical skills:

On successful completion of this programme, Doctoral Researchers should be able to:

1. have knowledge of and be able to apply appropriate methods used in their field

#### Key transferable skills:

1. be able to act autonomously in the planning and implementation of research
2. clearly present material and arguments orally and in writing, to a range of audiences
3. have self-direction and originality in tackling and solving problems
4. report research outcomes in an appropriate way for the intended audience
5. demonstrate time management and organisational skills to plan and implement efficient and effective modes of working

## University Regulations

University Regulations for Postgraduate Research study are set out in [Regulation XXVI](#) (Higher Degrees by Research).

Please see the [Terms and Conditions of Study](#) for detailed information on your contract with the University.

## Programme structure

### Part R1

Doctoral Researchers will complete the following:

Full-time Doctoral Researchers are normally expected to complete 10 days per annum of professional development training, with part-time Doctoral Researchers completing a suitable equivalent.

Submission of a 1000-word research report at 6 months for part-time Doctoral Researchers.

Submission of a 2,000-word research report at the mid-way point of Part R1 and submission of a satisfactory 10,000-word research report (end of Part report) towards the end of Part R1 in accordance with the provisions of Regulation XXVI.

Typically, the timetable for reports in R1 will follow the schedule below.

Time spent in R1	6 months	12 months	24 months
Full-time	2,000-word mid-part report	10,000-word end of part report	
Part-time	1,000-word research report	2,000-word mid-part report	10,000-word end of part report

### Part R2

Doctoral Researchers will complete the following:

Full-time Doctoral Researchers are normally expected to complete 10 days per annum of professional development training, with part-time Doctoral Researchers completing a suitable equivalent.

PhD candidates: Submission of a mid-part review for part time Doctoral Researchers, and a satisfactory 10,000-word research report (end of Part report) towards the end of Part R2 in accordance with the provisions of Regulation XXVI.

Typically, the timetable for reports in R2 will follow the schedule below.

Time spent in R2	12 months	24 months
Full-time	10,000-word end of part report	
Part-time	Mid-part report	10,000-word end of part report

MPhil candidates: Submission of their formal MPhil thesis for examination in accordance with the provisions of Regulation XXVI at the end of part R2.

### Part R3

Doctoral Researchers will complete the following:

Full-time Doctoral Researchers are normally expected to complete 10 days per annum of professional development training, with part-time Doctoral Researchers completing a suitable equivalent.

Submission of a mid-part report for part time Doctoral Researchers.

At the end of R3, submission of a formal PhD thesis for examination in accordance with the provisions of Regulation XXVI. Typically, the timetable for reports in R3 will follow the schedule below.

Time spent in R3	12 months	24 months
Full-time	PhD submission	
Part-time	Mid-part report	PhD submission

Where the thesis is not ready for submission at the end of part R3, Doctoral Researchers must submit a written report detailing the plan for submission (this is expected 12 months into R3 for full-time Doctoral Researchers and at 24 months into R3 for part-time Doctoral Researchers).

## Criteria for Progression and Degree Award

To progress from Part R1 to Part R2 and from Part R2 to Part R3, and to be eligible for an award, candidates must satisfy the assessment requirements set out in [Regulation XXVI](#). Candidates must complete all the requirements for each Part outlined above in order to progress to the next Part. If an end of part report does not meet the standards required for progression, candidates may undertake further work and resubmit the report on one occasion only in accordance with the provisions of [Regulation XXVI](#).
