SECTION C: SELF-ASSESSMENT

Briefly outline why you think the apprenticeship programme is appropriate for your development needs. What are the main benefits expected for you and your employer (eg. improve the performance of your department)? How will you know these benefits have been achieved (eg. achieve cost savings)?

SECTION D: LINE MANAGER CONTRIBUTION

Please review your employee's skills scan in Section B above. Do you agree with the areas where your employee has given a self-assessment of 1? (A self-assessment of 1 means that your employee already has formal training at Level 7 (eg, MSc) in the relevant underpinning theories; and that they are able to provide evidence to demonstrate these skills and behaviours. In this case, Loughborough University will be in touch with your employee to verify this).

Yes **No**

Please review your employee's self-assessment in Sections C above. What benefits do you think this programme will provide for your employee and your organisation?

As this person's line manager do you support the 20% off-the-job requirement for the programme? The 20% off-the-job requirement includes: the taught delivery time; time to research and write assignments; and the provision of opportunities at work to gain and develop relevant skills. Workplace opportunities may be necessary for the person to gather evidence for their End Point Assessment, in order to demonstrate ability against all the Senior Leader standards (as listed above).

Yes **No**

What specific arrangements are you planning to put in place to facilitate the 20% off-the-job requirement? For example, you may be planning to provide project work so that the individual can gain experience in areas outside of their regular job role; or to facilitate others, in the individual's team, to cover work in the individual's absences.
