If there are problems with how this message is displayed, click here to view it in a web browser.

You then need to click the link and it will take you to the website. Then you can login and create your account

Once you have logged it then it should open up this screen

This gives you the option to set up the alerts you choose to set up, you have to download the app otherwise it doesn't work, and you wouldn't get the notifications

The travel advice section gives you advice on particular countries and you can download a PDF of information

If you select my account on the top of the screen you access this by clicking your name at the top and then a drop-down menu comes up you can then select the country you are going to and select to get emails at a set time each day about the country in the drop down choose to be notified about moderate risks as the minimum

You then need to download the App from your phone's app store it is called **“Global Risk Manager”**

You login to this with the login details you have set up for the website

If you turn on the option that the app can see your location it will then give you updates for where you are in the world

If you click the upside down pyramid at the top then you can select the country you want to see updates for

Under alerts you will see all the alerts of events happening in those countries

For example, you can then click Germany and then the whole app will tell you what is happening in Germany

You can also select nearby only and then select the proximity to you for how close you want to know events that are happening
