

## Economics and Statistics

### **Career Options in Economics and Statistics**

Economists are employed in a variety of settings in both the public and private sectors. Nationally, Economists tend to work in business, HR and finance professions, with the largest employers of economist being:

- The Civil Service - [Government Economic Service \(GES\)](#)
- The Bank of England - Analyst Career Training (ACT) Program (see [Bank of England Jobs](#))

For further information about careers in Economics, visit [Prospects](#) , [What Can I Do With My Degree](#), [Inside Careers](#), [National Careers Service](#) , [Careers for Those Studying Economics](#)

### **Areas of Work**

Economics graduates also find employment in the following areas:

- [National or Local Government and public administration](#) - as well as the [Civil Service](#), this sector includes every government department and local government council in the UK plus Think Tanks [HM Treasury](#) which recruits separately.
- [Accountancy and professional services](#) that provide advice and accounting services to clients in the public and private sectors plus accountants employed in-house within an organisation. For example; KPMG, Deloitte, PwC, EY.
